

A DAY FOR the PILGRIMS who have returned!

Last Sunday, October 19, over 125 young people met to reminisce and relive the experiences of two wonderful events the 49th International Eucharistic congress in Quebec, and World Youth Days in Sydney, Australia.

This gathering was the opportunity to come together, to share experiences that each one had with the Lord. A presentation entitled '**What To Do When The Holy Spirit Comes Knocking On The Door**', gave the young people a chance to identify with *Dude*, a young adult, energized by an intense experience of God, who would like to change his life, but finds it difficult when he is caught up in his daily hectic lifestyle.

But slowly, the Holy Spirit comes to inspire him, and at first, not knowing how to change and become involved, Dude takes a risk, responds to the promptings of the Holy Spirit and becomes confident and proceeds.

It was an original skit that ended with a reflection on the sense of mission in the daily lives of everyone. The reflection was led by Bishop André Gazaille, who was with the young people, throughout the celebrations. A time for sharing, a spaghetti supper, video presentations, some witnessing, and before leaving, a period of adoration, a kind of heart to heart experience, for each and every one, with Jesus present in the Blessed Sacrament.

Yes the day for the returning pilgrims, was fun, light hearted, joyous, and wonderful in its simplicity. A special thank you to the young people who attended, and to all those who took an active part in the organization of the event! It is now up to you to LIGHT THE FIRE in our Church, and through your witnessing of faith, some hearts might change!
